

September 2020

Dear student

You will have received a letter informing you which days your induction to the College will take place. Induction this year will be over two weeks to ensure that you are fully prepared for the start of your study programme and that you have the opportunity to get used to being in the College and how to move around the building safely.

The grid below is provided to clarify the days your induction will take place. There are different days for students completely new to the College and those who are returning to continue their studies.

Please make sure you are looking at the correct column in terms of whether you are new or progressing. If you are in any doubt and have not received your letter, please get in touch with the admissions team for guidance 01388 443000.

We look forward to seeing you in College.

Kind regards

Judith Layfield
Vice principal, curriculum and quality
